

GRADUATE CERTIFICATE IN GENERAL PRACTICE NURSING

COURSE DETAILS

Study mode: Blended Learning Version delivered at High Wycombe Campus in September and February.

Credits: 60

ENTRY: 2021/ 2022

This part-time course is designed for nurses new to general practice nursing. This is also part of the Health Education England General Practice Health Care Professional Fellowship and Preceptorship programme. It aims to empower General Practice Nurses (GPN) to learn the foundational knowledge and skills required.

COURSE OVERVIEW

It is a blended learning programme approach involving practical face-to-face and virtual teaching days combined with e-learning material. It will cover the NHS Cervical Screening Programme, men and women's health, national immunisations programme and travel care, ear care, wound management. It will also cover an introduction to key long-term conditions, monitoring and management in areas such as: asthma, chronic obstructive pulmonary disease, diabetes, dementia, cardiovascular disease and hypertension. You also have the opportunity of learning in practice with mentor guidance.

PRE-REQUISITES

You must be a qualified, registered Nurse and hold current professional registration on Part 1 of the Professional Register. You will also need to have evidence of having studied at Level 5. You have to be working in a General Practice for a minimum of two days per week and have access to a mentor working in this setting to support you through the programme.
