

# Primary Care Leadership Co-creation Session

Wednesday 28<sup>th</sup> July 10:00-11:00

## ***What leadership development do you and your teams need right now?***

## ***What support do you need over the transitions you will face in the next year?***

Come and help us to co-create the leadership development that you and your colleagues need from the South East Leadership Academy. We are looking to enrich our offer into Primary Care over the year ahead and to ensure we do this in partnership with you as our Primary Care leaders delivering health and care across the South East. Equipping you with the leadership skills you need will be key as we move through phases of learning from the Covid pandemic, operational challenges and changes to our ways of working that ICS and PCN development will continue to bring. That is why we want to hear from you.

In this 60-minute virtual session you will have an opportunity to:

- Share the needs you and those you work with have around leadership development
- Think creatively with colleagues from across the region about what leadership development works well
- Input directly into the regional offers we are building for the year ahead

## **Who is this session for?**

This session is for anyone working in Primary Care with an interest in developing leadership skills across the sector. It may be particularly relevant if you lead on learning and development within your organisation or profession, are a training hub lead or are an individual who is passionate about the leadership development of you and your colleagues.

## **Registration:**

To register for this event on **Wednesday, 28<sup>th</sup> July 10:00-11:00** please register [here](#).

This session will be delivered virtually via MS Teams.

*If you are interested to share your thoughts on leadership development needs across Primary Care but cannot make this date, then please email us at [nhsi.selll@nhs.net](mailto:nhsi.selll@nhs.net)*
